The *Art for Life* option is designed to develop knowledge and skills of contemporary theory, practice and research in art education through artistic and scholarly inquiry and by exploring current and historical issues in art education, particularly in *art education for social justice and environmental issues*. This degree can be tailored to meet the student's individual needs and interests, and can include studies that relate to museum education and/or community arts. In addition to the core requirements, courses may be selected from a variety of related disciplines, with the approval of an art education graduate advisor.
